***News Alert Class: The Calm Before The Storm is Over...***

---

#### ***In The News...***

As mentioned in our most recent past reports, we were in the calm before the storm and that seems to have proved to be accurate. Things have certainly heated up and I don't mean the weather.

Israel is now at war and this war will find them attacked from on more than one front. They are already seeing the attack in the north and are preparing for attacks from other fronts, so say the reports coming in from the Middle East. To get a sense of how serious this is becoming just read through the front pages of DEBKA.COM and pay careful attention to the dates of the articles. You should also look at [this article](#) to get a sense of where the action is taking place. There is so much happening all at once it's hard for even the best intelligence news agencies to get the information out fast enough!

So what does all of this mean against the tapestry of Bible Prophecy?

No one can really provide a complete explanation, because we really can't know the **complete** future, but, I can tell you where this is going and why. In Matthew 24 and Luke 21 **b'Yeshua HaMashiach** (Jesus Christ) tells us that in the time leading up to His return, there would be wars and rumors of wars and He described much more as well. He also told us that all the events and circumstances that would lead up to His return would be like that of a woman in labor, readying herself for the delivery of her baby. I have used this illustration a lot in my writings because it applies to every thing we see now. You may recall that I have addressed the issue of the calm before the storm, just like a woman who is in labor and how her contractions come and seem to go and we all know that the contractions don't leave they just intensify with each new round of contractions, until finally she delivers the precious gift that God has given that family! Well that's exactly what we see happening now. With each new contraction the events on the ground get worse. This process will continue until the Lord returns. If we were to break it all down into it's simplest definition in order to have a better understanding, the woman in labor analogy fits like a glove.

By the way, you can find my articles referencing this period of calm in these articles; [Peace at any cost?](#) and [Signs of The Times](#). All of my past articles can be found [here](#).

So, where will this new war in Israel lead? All I can say for sure and I'm 100% sure of this, it will be one of the events that eventually bring us closer to a few Prophetic events:

1. As pressure in the Middle East builds it will demand a political leader to broker a peace deal. This pressure will eventually lead to establishment of the Antichrist's seven year reign on earth.

2. Wars like this in the Middle East have the potential of escalating to such a high degree that it could bring into the region the world at large. Eventually there will be a war in the Middle East where the entire globe will be involved.
3. Wars like this allow the pressure in the region to build - just like labor pains and at some point in time and usually sooner than later, it will lead to a major historical event!

From current events, Iran promising to wipe out Israel and going nuclear, North Korea testing it's ballistic missile capabilities and threatening the U.S., Taiwan testing it's ballistic missile strength, China and Russia playing all ends against the other, we have the pressures present right now to bring about a world war and all of this is leading to the return of **b'Yeshua HaMashiach** (Jesus Christ).

We are living in **perilous times**, but, the Lord is our strength and will deliver us all! **2 Tim 3:1-9**

Then those who feared the Lord spoke to one another, And the Lord listened and heard them; So a book of remembrance was written before Him For those who fear the Lord And who meditate on His name. AMEN! Malachi 3:16
